Toy Safety Tips

Toys and games are tons of fun for kids and adults. Whether your kids are working on a puzzle, playing with building blocks or even inventing their own games, here are a few things to think about to help them stay safer and have a blast.

Find the Perfect Toy for the Right Age

- Consider your child's age and development when purchasing a toy or game. Read the instructions and warning labels to make sure it's just right for your child.
- Before you've settled on the perfect toy, check to make sure there aren't any small parts or other potential choking hazards.

Store Toys After Play

- After play time is over, use a bin or container to store toys for next time. Make sure there are no holes or hinges that could catch little fingers.

Sign Up to Receive Product Recalls

- Safe Kids compiles product recalls specific to children and sends twice-monthly e-mail alerts for recent recalls. Sign-up for the [latest recall information](#).
- Go to www.recalls.gov for additional information about product recalls related to kids.

Don't Forget a Helmet for Riding Toys

- If your children have their hearts set on a new bike, skateboard, scooter or other riding equipment, be sure to include a CPSC certified helmet to keep them safe while they're having fun.
- [Learn more](#) bike safety tips and watch our [helmet safety video](#).

In 2016, 174,100 children under the age of 15 years were seen in emergency rooms for toy-related injuries. That's 477 kids every day. Almost half of those children were younger than 5 years of age.

Have a safe and Happy Holiday!

FREE CERTIFICATION

December 9, 2019 9:00 am – 5:00 pm

Ocala Police Department Community Room
402 S. Pine Ave.; Ocala, FL 34471

What You Learn:

Signs of addictions and mental illnesses

Impact of mental and substance use disorders

5-step action plan to assess a situation and help

Local resources and where to turn for help

Just as CPR helps you assist an individual having a heart attack — even if you have no clinical training — Mental Health First Aid helps you assist someone experiencing a mental health related crisis. In the Mental Health First Aid course, you learn risk factors and warning signs for mental health and addiction concerns, strategies for how to help someone in both crisis and non-crisis situations, and where to turn for help.

Taught by two certified instructors, Mental Health First Aid (Adult) teaches about **recovery** and **resiliency** – the belief that individuals experiencing these challenges can and do get better and use their strengths to stay well.

Learn how to apply the Mental Health First Aid action plan in a variety of situations, including when someone is experiencing panic attacks, suicidal behaviors, acute psychosis or reaction to trauma. The opportunity to practice – through role plays, scenarios, and activities – makes it easier to apply these skills in a real-life situation.
